

## Filming

The Sundre & District Museum has hosted film crews in our spaces. We have collaborated with the Mountain View Film Group as well. Filming is an activity that requires some thought and planning. We welcome your thoughts, proposals and ideas to see how our museum spaces can fit your production needs. Feel free to reach out to us today!

---

**Pricing is determined through individual requests based on number of days, visitor impact, buildings and spaces being used and the preparation to the space required.**

*"This tiny museum is kind of exactly what we were looking for in terms of the style of shoot but also the time period."*

*-Griffin Cork*

*"Filming at the Sundre Museum was absolutely fantastic. It's a truly unique location, unlike any other. Gaining access to the multiple buildings which can serve as different settings for*

*a film/tv project was also very valuable. Our crew was very conscious of the delicate artifacts and considered that we were on a historical site. However, Carrie went above and beyond to ensure we had the best time while remaining conscious of the location's importance. She met with us beforehand to discuss our needs, removed artifacts before we filmed and let us bring in some of our own set pieces. We also used the round building for our cast/crew holding which was extremely valuable for people setting up and preparing for the day. I absolutely love Sundre and the people there are always so kind. Carrie and the museum staff were nothing short of this. We will definitely come back."*

*-Hailey Foss*
